I. A SELECTION OF LEADING CASES IN EQUITY, With Notes by F. H. White and O. D. Tudor, esquires, with Additional Notes and References to American Cases, by J. I. Clark Hare and H. B. Wallace, Editors of Smith's Leading Cases.

THE Publishers have the satisfaction to announce that the first volume of this much expected work is now nearly ready for delivery. It is upon the plan of Smith's Leading Cases, and is supposed by competent judges to present claims to the attention and favor of the profession, not less striking than those which were offered by Mr. Smith's work. The work has been annotated by Messrs. Hare and Wallace, in the same claborate and thorough style which distinguished their commentaries upon Smith's Leading Cases and the American Leading Cases. The American Notes, it is believed, will be found to present an accurate and complete view of

Ambrican Leading Cases.—Select decisions of American Courts in several departments of law, with especial reference to mercantile law, by J. I. Clark Hare and H. B. Wallace, esgs., editors of the American edition of Smith's Leading Cases.

This work is upon the plan of Smith's Leading Cases, and applies the same method of research and illustration to various important branches of the law which were not included therein, and is, in effect, a continuation of that work. The cases consist of the most celebrated decisions in the Federal Courts, and the courts of the several States, upon the subjects discussed; accompanied by elaborate notes, in which the reports of all the States in the Union have been collated; so that the work presents a complete view of American Law, upon the subjects which are examined.

NOTICES OF THIS WORK.

NOTICES OF THIS WORK.

From the Pennsylvania Law Journal for April, 1848.
The principal points illustrated in the first volume are, the whole subject of Agency, Voluntary Conveyances, Assignments to a trustee for the benefit of creditors, Domicil, Infancy, Interest, Application of Payments, Negotiability, and Negotiation of Payments, Negotiability, and Negotiation of Promissory Notes. Form, Time and manner of Notice, Power of a partner to bind the Firm, Incidents of Real Estate held by a Firm, &c. It will be perceived, by the enumeration of titles, that the volume comprises subjects of every day occurrence to the practitioner. In themselves, they farnish so many compendious treatises upon the actual state of the law. It is like Mr. Smith's Leading Cases, in plan, and mode of annotation, and extends this method to other titles not embraced in Mr Smith's volumes; and is, in effect, a continuation of that work. Those who are familiar with the last or preceding American Editions of Smith's Leading Cases, have an earnest of the capabilities of the editor of the Select Decisions, for the labor he has assumed. The notes, or rather essays, that accompany the Select Decisions, occupy more than one-half of the volume, and are in fact a critical collation of all the American Cases, (upwards of 3,000,) bearing upon the subjects discussed.

SMITH'S LEADING CASES, third American edition, with Notes and References to late English and American Decisions, by J. I. Clark Hare and H. B. Wallace, esqrs.

The American Editors have carefully collated and noticed all the decisions in the Reports of the English and American Courts, since the publication of the former Edition of Smith's Cases.

The work is now offered to the Profession in an enlarged form, enriched by numerous and important additions, rendering it still more valuable and useful to the Lawyer and the Judge.

NOTICES OF THE AMERICAN EDITION. "The American Cases upon this subject (the distinction between Case and Trespass) will be found extensively collected and collated in a note to Scott v. Shepherd, 1 Smith's Leading Cases, 329."—The Court in Claffin v. Wilcox, 18 Vermont,

on, (for fraudulent representations,) has been fully and ably reviewed by Mr. Wallace, one of the American editors of Smith's Leading Cases, in a note to Pasley v. Freeman, 2d vol. p. 101, where all the authorities, English and American, are collated.—The Court in Young v. Hall, 4 Georgia Revorts, 90.

"The cases (on Commercial Usages) are too numerous to cite in detail, and I will only refer to them generally, as fully collected in the notes to 1 Smith's Leading Cases, (Amer. Ed. of 1844,) 418."

The Court in Clark v. Baker, 11 Metcalf, 189.

State Courts, on the great doctrines in Twyne's Case, which is perhaps the most elaborate case in the English Law, and has given rise to the most protracted and animated discussions."—Chancellor Kent. 2 Commentaries, 532, note. "The numerous decisions, English and American, on this intricate head of the law of real property, (covenants running with lands,) are very industriously collected in Smith's Leading Cases, under the title of Spencer's case.—Chancellor Kent. 4 Comm.

CAMBRIDGE, Jan. 25, 1845. CAMBRIDGE, Jan. 25, 1845.

Gentlemen: Your letter of the 24th has been received, in which you ask my opinion as to the value of the English Exchequer Reports, from Price downwards to this time, to an American lawyer, and as to the expediency of reprinting them in this country. Of the high value of these Reports, both on the Pleas and Equity sides of the Court, I have not the least doubt, the decisions of this Court for the last fifteen or twenty years, both at Equity and in Common Law, are entitled to equal respect with any others in England. I should think an American lawyer's library essentially incomplete without them.

I am, gentlemen, very respectfully yours,
SIMON GREENLEAF.

Bennett, Mr. Wallace reviews the whole law in relation to voluntary conveyances in the United States, pointing out where the selected decisions have been sustained, were rejected, condensing and reconciling the reasoning, or pointing out the inconsistencies of the nice and often wire-drawn distinctions which have been taken."

From the Pennsylvania Law Journal, May, 1845.
This volume by Mr. Hare is no less satisfactory than its predecessor by Mr. Wallace. It is fully equal to it in every point of view. The Select Decisions are thirty in number; chosen with great judgment, and annotated with discrimination and the most ample learning.

We are satisfied that our friends, Messrs. Wallace and Hare, will receive the hearty thanks of the profession for this second joint contribution to our standard law books. The science of law is only to be adequately learned through the medium of adjudicated cases, and when the student has, as in the book before us, important and leading ones not only pointed out to him, but fully and carefully considered, with ample and thorough notes, ambition has an additional incentive and indolence cases to have an excuse.

It has long been a part of the practical instruction at the Dane Law School at Cambridge, to point out and comment on important adjudicated cases; and Mr. Smith's Leading Cases has become a text-book for the purpose. We do not entertain a doubt but that Messrs. Wallace and Hare's work will receive, as it deserves, the same attentive consideration of both the professors and the students of that important and influential school of legal instruction.

Worcester's Universal and Critical Dictionary of the English Language.

By J. E. Worcester, LL. D.

One volume, 8vo. sheep, 1032 pages—Price \$3 50.

The publishers respectfully invite attention to the following eminent testimony to the excellence of this standard dictionary.

The execution of this Dictionary fully answers to its title. The Vocabulary is probably more comprehensive than that of all preceding English Dictionaries united. Constant reference is made to avthorities with respect to words newly introduced, and care is taken to note such as are technical, foreign, obsolete, provincial, or vulgar. The defining to technical and scientific terms are specially valuable to the general reader. The author has evidently bestowed great labor on pronunciation. His system of Notation, which is easily understood, and founded on a more complete analysis of the vowel sounds than we have elsewhere met with, together with his plan of exhibiting all the best English authorities in relation to words differently pronounced by different orthoepists, gives to this work important advantages as a Pronouncing Dictionary. In outnogaraphy he has made no arbitrary changes, but where usage is various and fluctuating, he has aimed to be consistent, and to reduce to the same rules words of similar formation. The insertion of Grammatical forms and inflections of words to a much greater extent than they are given in other English Dictionaries, and the short critical notes on the orthography, the pronunciation, the grammatical form and construction, and the peculiar, technical, local, and American uses of words interspersed through the volume, give to this work much additional value. The copious Vocabulary of Modern Geographical names, with their pronunciation, and a greatly enlarged and improved edition of Walker's Key to the pronunciation of Classical and Scripture proper names, are important appendages to the Dictionary. Eighteen months have passed since this Dictionary. Eighteen months have passed since this Dictionary was publish

guage.
